PRODUCT SPECIFICATION & TECHNICAL DATA

A185 - Duo-Therm Glove

Collection: Thermal Protection Gloves

Range: Gloves

Materials: Polyester, Latex

Dipping: Latex

Inner Pack: 12

Outer Carton: 192

Product information

The A185 uses the latest techniques to produce an excellent and durable glove. An extra layer of wrinkled latex is added to the 'high-wearing' fingertip areas of the glove only, which improves grip and durability, while reducing hand fatigue. The thermal liner provides added warmth for the hand.

Thermal Protection Gloves

When cold thermal hazards are present, the hands' motor skills can be greatly reduced, this leads to increased risks of accidents and injury. Specially designed thermal protective gloves are available to combat these hazardous environments.

Gloves

A wide and increasing range of Hand Protection styles is available. In order to help cater to every need. Only the best materials and manufacture methods are used in the production of Portwests' extensive range of Hand Protection products.

Standards

AS/NZS 2161 .3
AS/NZS 2161 .2
AS/NZS 2161 .5
